Jaffer Afzal Khan

Mumbai , Maharashtra, India

Jaffarkhan2495@gmail.com |8879708707| github.com/jafferafzalkhan

Education

Rizvi College Of Engineering , Mumbai — Expected Graduation 2022 – 2026

Pursing B.E – Computer Science and Engineering — Current Semester 7 CGPA – 6.79

CourseWork / Skills

Data management System , OS , Software Engineering, C programming, ARTIFICIAL Intelligence, Machine Learning etc.

SUMMARY

Frontend Developer & Data Science Enthusiast with strong expertise in React and building user-focused, scalable, data-driven applications. Experienced in translating real-world requirements into intuitive interfaces and efficient solutions. Combines frontend development with data science thinking to deliver impactful, insight-driven products.

SKILLS

React.js, JavaScript, React Hooks, HTML, CSS, Tailwind CSS, Responsive Design, GSAP Animations, REST API Integration, Git & GitHub, Figma, Problem Solving, MongoDB, MySQL. Data Science: Python, Data Analysis, Pandas, NumPy, Data Cleaning, Data Visualization, Basic Machine Learning, Statistical Concepts.

Projects

Horizon Watch – Weather Prediction
Developed a data-driven weather prediction application delivering real-time and forecast insights through a user-focused, scalable interface. Integrated weather APIs and visualized trends to support informed decision-making.

CryptoHub – Cryptocurrency Dashboard
Built an interactive cryptocurrency analytics dashboard displaying real-time prices, market trends, and dynamic graphs. Implemented multi-currency conversion to present crypto values across different global currencies with a responsive, performance-optimized UI.

Smart Waste Segregation System
Created an intelligent waste segregation system that detects and classifies waste into wet, liquid, and metal categories. Applied data science classification techniques to automate decision-making and improve waste management efficiency.

Customer Behavior Analysis & Prediction
Analyzed customer data to identify behavioral patterns and trends. Performed data cleaning, exploratory data analysis, and predictive modeling to forecast customer actions and support data-driven business strategies.

Sales Forecasting & Trend Analysis
Developed a time-series forecasting model to predict future sales based on historical data. Applied statistical analysis and machine learning techniques to uncover trends, seasonality, and business growth opportunities.

Certification

- HTML & CSS
- Oracle Data Science
- IBM FRONTEND
- IBM Data Science
